

MOTION CONTROLLERS & POSITIONING MODULES

POSITIONING MODULES

MR-H W ACN

MR-J2 W C (-S 100)

MR-H W TN

POSITIONING MODULES

With built-in 1-axis positioning function

Possible to do positioning without a program by setting data into the point table. Possible to construct a positioning system easily by using I/O control.

MR-H W ACN

Possible to expand positioning points to a maximum of 256 points by connecting an optional card.

MR-J2 W C (-S 100)

Compact size, user-friendly servo with embedded positioning function.

MR-H W TN

High potential CC-Link compatible servo-amp which has the same function as MR-HW ACN.
